PACIFIC
BUSINESS COLLEGE,
MECHANIC'S INSTITUTE,
Post Street, Between Montgomery & Kerney
SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inexplicable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,
VINSONHALER & DE LAGUNA,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support of the community.

April 25, 1868. F. GROHS.

TREASURE.

Two youthful schoolmates, blithe and free.
Wandered together by the sea.

Said one, "My hopes are high as heaven;
To me the future shall be given."

Said his companion, "I will stand,
Among the foremost of the land.

"My fame shall thread the maze of men,
And lightnings quiver from my pen."

They met again in forty years,
And told their boyish hope and fears.

The one had set his heart on gold,
And found it—growing frail and old.

The other, living fuller life,
Had fled the haunts of wordly strife,

And filled his soul with purpose high,
And wisdom of the earth and sky,

But had not gathered golden store,
To scare ill-fortune from his door;

Nothing but courage, hope and faith,
And love, the conquerer of death.

The rich man, with a mornful smile,
Said to the poor, and sighed the while:

"Oh! friend, thou'st dreamed thy life away,
And now thou art old and gray,

"Hast not a penny for thine age,
Or for thy children's heritage."

The poor man cheerily replied:
"What matters? Life and joy abide,

"My children sporting in the sun,
Can do at least what I have done.

"I've had my pleasures as I went,
And know the riches of content.

"Thou hast thy treasures—I have mine—
My heart my judge, men's verdict thine.

"But, friend, who'st choosen other ways
Than those I've trodden all my days,

"When comes the hour, as come it must,
When thou shalt mingle with the dust,

"Whose treasures shall the best indure—
Those of the rich man or the poor?

"Thine cease at portals of the grave,
Not even their shadows canst thou save!

"But what I've won with heart endeavor
Is mine forever and forever.

"I take it with me through the tomb,
And find it when I pass the gloom!"

—*All the Year Round.*

THE CHINESE EMBASSY.

The New York correspondent of the Boston *Bulletin* says: "I am stopping at the Westminister, so called because it is east of Broadway, I suppose. Being in the vicinity of east is what makes it such a rising hotel.

All the great guns stop here, except those that have gone off. Dickens was here; I am here (the "Duke's Motto"), and Burlingame and a cargo of mummies arrived last week. It is the Chinese Embassey, and the hall of the hotel looks as if a tea ship had just discharged there.

Some of the Embassy are the 'ton' of China, Can-ton. Ferrin has been buying black and tan terriers for the last three months, in expectation of their arrival, (keeps them in the w(h)ine cellar), and has contracted for all the last year's birds nests in the Central Park. Some of the ladies of the hotel have attempted to set their caps at the Celestials by wearing rats in their hair.

I give you the names of the Embassy, copied verbatim from the hotel register:

Mr. Shusebong Mr. Flor E. Pekoe, Mr. Bo Hee, Mr. Hi Yah, Mr. High Son and Mr. Young High Son, Mr. T. Wankey, Mr. Oo Long, Mr. High Sunskin, Mr. Teap-Oi, Mr. O. P. Um, Mr. T. Kaddie, Mr. Teep Ott, Mr. Tah Ta E. Metik!

One of them registered his residence at Shanghai, and Chadwick immediately roomed on the eighteenth story. John said he was not room-attic—didn't want to go any High Yah in New York.

Some of the residents of the hotel have had to change their rooms to accommodate the Embassy, and one of them has moved so often that he calls himself a flying roomer.

The chambermaid's name here is Abby, and Westminister Abby is worth looking at. I can tell you. She says the Chinese are very queuerious people: says they have looked into every room in the house; some of them are great men at Pekin.

Breakfasted with them the other morning. Cook asked if he should send the meat up in Chinese junks; laughed and got a piece of mutton in my throat: waiter asked:

"What's the matter?"

Says I, "the chop sticks."

"Better try a fork," says he.

They mind their P's and queues pretty well, but Ferrin says, although they are so quiet, he he has not had so much broken china in the house since he has been there.

One Madarin, who had been unfortunate in growing his hair, has engaged Sylvanus Cobb, to have his tale continued in the New Yotk *Ledger*.

Asked one of them what their principal entertainment was in China. He said, the Feast of Lanterns. A sort of light supper, I suppose. Asked me where he could get his tea in the house. To'd him he could probably get his Highson in the bar-room.

He went there and took a drink, and asked why they didn't keep fire-crackers on the counter. Bar-keeper said they had pilot-bread, and Jim D—— "barfed."

Think there must be some good billiard players among the embassy from the clever way in which they handle their queues. Palmer took them down to see the "White Fawn;" said they thought American legs much more attractive than Chi-knees.

They think the Americans a very tardy race, as most of our countrymen who visit China come after tea.

They were serenaded the other night; band played "Polly, put the kettle on, we'll all take Tea."

We have been sight-seeing this week. Went down to Wall street to see the kite flying, and had a lunch off rice in stocks. Went up to old Central Park; saw Lester Wallack's new drag. Offered to buy one for them. Said there was no use sending a drag to China.

They want some tables showing the consumption of tea in this country; they have seen several tea tables illustrated with plates—in fact sat down at them—a china set.

Their costumes are somewhat worn; much of the service they have undergone is China wear, however. You may expect to see them in Boston soon; so—commercially speaking—look out for a movement in rats, and a crash in gongs may be expected by both buyers and sellers.

THE FIRST CHRISTIAN CHURCH.—In the year of Christ, 50, it is supposed Christianity was first introduced in Britain; tradition reports, by Joseph of Arimathea, who was sent on this mission by the apostle Philip. Joseph founded a church at a place called, in the British tongue, Ines Withren, but now Glastonbury; the dimentions of which church are given by Sir Henry Spelman, in his work on Ecclesiastical Antiquities, as he called it from a plate fixed on the pillar in the new church, and preserved after the demolition of the monastery of Glastonbury, by Henry the Eighth. The church was not very magnificent; but in the rude and primitive age in which it was erected, no doubt it was considered as worthy of the exalted purposes to which it was appropriated. It was very low, according to the custom of the time, it was sixty feet long, and twenty-six broad. The walls were of wicker work, being formed of strong twigs woven together, and secured at intervals by poles or joists; and the roof was thatched something after the modern mode, but rendered secure by being covered with skins. It was encompassed by a churchyard, the extent of which is unknown; but is said to be large enough to contain a hundred graves amongst which are alleged to be those of Joseph of Arimathea, and of St. Patrick, abbot of the monastery. The latter was afterwards surmounted by a stone pyramid, overlaid with silver, and was restorted to by pilgrims, during the subsequent ages of popish superstition.

THE Amador *Ledger* gets off the following good joke: "Because General Grant didn't run worth a cent during the few years of the late Democratic canvass in the South, the Democracy say he will not run well during this canvass."

BLOWING UP THE GLOBE.

The savans are busy with a new and rather dangerous theory. The phenomena of more recent earthquakes ard eruptions, as of Mauna Loa, Mount Vesuvius, Mount Hecla, St. Thomas, etc., have started the philosophers upon a new series of investigations and generalizations. Prof. Loomis, of New Haven, has come to the conclusion that all volcanoes, instead of having a local origin, do in fact have a common origin in the intense heat and molten matter of the globe. The thin crust of the earth is only the shell of a boiler; and the hot springs, steaming fissures and flaming volcanoes are the merest leakage from the ordinary pressure. These eruptions, Prof. Loomis thinks, are now satisfactroily proved to be caused by water flowing upon this central fire and thus creating a vast amount of steam (superheated, we should suppose). This exerts an enormous pressure upon the shell of the earth, bulging it up, cracking it open, punching holes it the tops of mountains, throwing up lava and enormous rocks, and blowing off steam with such occasional jars and tremblings, alternating in power from the one which shakes down a little crockery to one which shakes down a city. Now, according to the new theory, it is only necessary to let in a little more water, which may happen by a hole or fissure in the bottom of the ocean, and we are "gone up." Steam enough will be raised to toss the mountains like so many pebbles. And the worst is that the New Haven savan thinks there is now great danger that the water is to be let on. This plan squelches the electrial theory at once. But so much the worse for such an intangible theory.

And then, as though the Professor had not suggested mischief enongh, he intimates that some such catastrophe has fallen a planet 50 times larger than the earth, which once had a place between Mars and Jupiter, the remains of which are found in 97 pieces called asteroids, and a great many more pieces which were never found. On the whole, the Professor has got up an impending catastrophe on a large scale. But as the shell of this terrestial world has held together now a long time, and for ages when it was much thinner than now, and a good many people, we think will be inclined to take the risks. We have had nothing in the recent phenomena more extraordinary than has occured many times before. Mountains have been lifted from the plains, islands have been cast up in the ocean, volcanoes have been active during all the habitable ages, and earthquakes have been more or less disastrous for the last fifteen centuries. And with all this strain, with here and there a fissure and some fiery leakage, have not the savans told us that the crust of the earth is stronger than ever before? The new theory takes small account of this fact.

Once get the full head of steam on and away we go. Fifty or five hundred asteroids go whirling into space and the astronomers of the moon poke their glasses at us, and then call a meeting to discuss the phenomena. A good many vexatious partition suits would be ended summarily. And it is a grave question whether some of the large ranches would be found on any one asteroid. At any rate the hint ought to improved by men who have already more land than they know what to do with, and still seeking for more. They will certainly find themselves in an awkward plight if there is any virtue in the new theory.—*Bulletin.*

ABOUT THE FASHIONS.—The Virginia City *Enterprise* has the following on ladies fashions which may be interesting to our female readers:

Thinking that our lady reader in the country might be pleased to hear something in regard to the style of dress prevailing among the ladies of the metropolis of the State, we yesterday made some observations with a view to their enlightenment. When we first thought of writing such an article we imagined that all we had to do would be to take our stand on the fashionable side of C street and note the predominant style of dress. This appeared very simple and easily done. We tried it and have been much puzzled. To our uneducated eyes there appears to be no particular fashion. A lady comes sailing along with about three yards of skirt trailing after her sweeping the pavement behind her and leaving in the dust a sinuous track like that of a serpent, and as distinctly marking every wriggle right and left as would a pentagraph; the next lady that approaches is a high stepper with a dress reaching but two or three spans below the knees, wears no hoops, and her dress hangs as closely about the lower limbs as a meal-sack would about a churn-staff; her nose points up before and her chingon—like a May pole wreathed in ribbons—points up behind and serves to support the crupper that runs aft from the sort of lamp mat on the top of the head. Following these comes a lady wearing hoops of tremendous size, skirts that just touch the pavement, a mousquetaire hat and a chingnon of long frizzled curls, next a queenly beauty in Pompadour jupon crinoline and a tiny Matelot hat, with one long curl hanging down her back over her left shoulder—some wear two of these curls and they are very pretty, for those who can afford to indulge in so much hair. Our next specimen wears no hoops—or very small ones—and her petticoats reaches down to the tops of her boots, while her dress appears to have languished by the way and halted but little below the knees; she wears a polonaise paletot, or something of the kind, with a pair of clawhammer coat tails behind, and sports on the back of her head a cannon ball chingnon, decorated with two long streamers of yellow ribbon. Pantalets are not much worn except by old ladies. Wattau hats, with coquetishly turned-up brims, are very pretty for young ladies and takes the eyes of the boys, who seldom fail to say, in an audible whisper. "What'er hat!" As for the materials everything must be shot. All kinds of silks—green, manve, maize and gray, particularly—must be shot. Alpacacas, mohairs, and some other kinds of hairs and rabbits, are also shot. To conclude—and in our conclusion is the whole gist of our somewhat bewildering researches in the realms of fashion—we advise our country friends to be satisfied with nothing that is not the Louis XV. style. Old styles in everything are the rage now. You must raise the upper part of the back of your dress into a large puff, in the Louis XV. style; you must fasten your paletot at the waist by a sash with a large Louis XV. bow and long lapels, wear a Louis XV. in every thing till you come to sleeves, when patronize Louis XIV. But perhaps you are not familiar with the costumes prevailing in the tme of either the one or the other Louis; then we say wear the very gayest rig left you by your great-grand-mothers, or better still, of your great-great-grand-mothers, and you will pass muster everywhere.

A PUPIL of the Abbe Record gave the following extraordinary answers:

What is gratitude? Gratitude is the memory of the heart.

What is hope? Hope is the blossom of happiness.

What is the difference between hope and desire? Desire is a tree in leaf, Hope is a tree in flower, and Enjoyment is a tree in fruit.

What is eternity? A day without yesterday or to-morrow; a day without end.

What is time? A line with two ends; a path that begins in the cradle and ends in the grave.

What is God? A necessary being—the sun of eternity; the machinist of nature; the eye of justice; the matchless power of the universe: the soul of the world.

Does God reason? Man reasons because he doubts; he deliberates, he desires, God is omnipotent; he never doubts, therefore never reasons.

A READER writes that he takes no stock in the "New Woman's Club." He says the "old woman's club" is enough for him, and frequently too much.

MISS JOSEPHENE LAPHAM, a graduate of Antioch College, Ohio, has just appeared at Dayton as a Universalist preacher, and creaed a sensation.

GEO. C. GORHAM will return to this State in August, and intends making a vigorous canvass for Grant and Colfax.

WHISTLING.—Good whistling may sometimes be heard, but the instances of its occurrence are rare. Snatches of operatic airs, curiously intermingled with comic street songs, are the favorite subjects of the whistler, and these are generally executed with a careless disregard of time and tune which to any one who possesses the slightest pretentions to a musical ear must be most disagreeable. As a rule, a ploughboy will outstrip any well-bred man in whistling. The reason is, probably, that he is never haunted by sense of the ridiculousness of his face as he purses his mouth into the form of whistling. A friend of mine, who enjoyed a far-famed reputation for whistling, was repeatedly asked to exercise his talent at dinner and evening parties. On account of some curious whim of his own, he would (or could) only comply with the request provided he might be permitted to turn his back on the company. His demand was on all occasions granted, whereupon he would turn around and begin to whistle any tune he was desired. One day he was desired to favor his friends with a piece from "La Sonambula" and as was his want, he wheeled round, and fixing his eyes on the ground commenced whistling. Happening, however, to raise his eyes toward the conclusion of the air, he saw in a large mirror before him the countenances of his auditors, some of whom were trying to restrain their mirth; this was to much for him, and the tune was abruptly put a stop to, by a loud burst of laughter from the gentleman himself. Whistling is not often appreciated enough to be sought after, as in the case of my friend; and even a peformance on a teapot is more attractive, if I may judge from the crowd of people I once say in Oxford street, listening to a boy who was actually playing on one of these useful articles. On the lid several holes were bored, on which the young urchin placed his fingers, whilst he supported the teapot by holding the bottom with his two thumbs. He blew in the spout, and, as I suppose, the different notes were produced by some pipes inside the instrument, which was affixed to the holes before mentioned. Who would believe it possible that tunes can be played on a teapot? A correspondent on whistling as a fine art, says: "I heard the Spanish Manola, as a trio, whistled very well, in a little village tavern, between Frankfort and Homburg, last year. Three rustics performed, and the effect was not pleasant. At the Horns, (Kennington), about a month ago, Mr. Gorham whistled a waltz, accompanying himself on the piano with his right. It is now obout six years since an Englishman, named Chas. Groves, gave several specimens, in Montreal, of his skill in whistling, and got up a class to teach it at a Mechanics Institute. Of course there was giggling before the lesson actually commenced, but it was presently exhausted; and the class, with solemn faces, waited for the tutor who was trilling a few preparitory cadenzas. The order came: "Gentlemen, *prepare to pucker!*" as he pursed up his lips. The class never got beyond that point."—*Once a Week.*

POETRY.—"What poetry is," is a question, which has, in all ages, exercised the ingenuity of the acutest, as well as the most comprehensive minds; and perhaps there are fewer subjects on which there has existed such dissimilarity, and, in many cases, opposition of opinion. But the problem would not have been found so difficult of solution, had not prejudice been so long allowed to usurp the throne of just criticism, and the "dogmatism of learning," and the reverence paid to ancient authority, been, unfortunately, possessed of more influence than the plainest dictates of truth and nature.

"Poetry," say some, "consists solely in imagination,"—in that power of the mind, which ideal worlds are called into existence." But to this definition there are two strong objections. Imagination is not only conne ted with ideal, but likewise with palpable objects. The true poet not only creates, but he also separates, combines, and compares the infinitely diversified appearance of visible nature. Nor is the definition sufficiently comprehensive: It makes no distinction between the *Mysteries of Udolpho*, and the *Paradise Lost*; for in the former, imagination exists in the same kind, though not in degree, as in the latter.

Another and a greater authority comes nearer the truth, when he asserts that "poetry accommodates the appearance of things to the desires of the mind." It is, indeed, an association of the images of visible creation, not only with the conceptions, but also with the passions of the mind. Hence a familiarity with these images, with the power of adapting them to the expression of these conceptions and passions, and a heart capable, not only of strong and mighty feeling, but of being moved by the finest touch of human sympathy, are necessary to form the true poet. Imagination and feeling, then, are the two great fundamental principles of the art.

Many have contended that versification is a constituent part of poetry; but, abstractedly considered, it is an adjunct not an essential part. The works ascribed to Ossian are doubtless poetry; many passages in the Bible, in Rasselais, and not a few in the Rambler, are as highly poetical as the most admired descriptions in the Iliad, or the Fairy Queen. But poetry has always been designed, not only to move and elevate, but also to please; for which purpose, versification and harmony of numbers, are admirably and peculiarly adapted.

TALKING AND WRITING.—To talk well and to write well are quite distinct accomplishments, although they are sometimes found united to a high degree in the same individual. Often, however, it is quite otherwise. Poor Goldsmith occurs as a familiar example. The observations he let fall in company with his literary colleagues were so notoriously flat and pointless as to provoke the remark that he "wrote like an angel, and talked like poor Poll." Other great talkers—famous wits, have written so little that their reputation rests on *bon mots*, and anecdotes recorded by others. But even when a great talker is also a great writer, it is really through his own "Remains," that we appreciate his conversational abilities. We owe that privilege to the bands of camp-followers who pick clean the bones of deceased celebrities. Johnson's reputation in this respect owes more to Boswell than it did to himself. The unreported talker shares the fate of the singer; after his departure from the scene, his fame remains a matter of faith and tradition, which people believe in because their fathers have told them so, but the proof of which is forever silenced.

A SOUTHERN gentleman putting up at the New York Hotel, the other day met on Broadway one of his former chattels, who, during the war had taken a prolonged furlough for an indefinite period, and had not returned to his former residence in the Sunny South. Julius was all dressed up in snuff-colored pants, white vest, blue coat with brass buttons, and purple kid gloves, swinging his cane as gracefully as any other Broadway dandy.

"Well, Julius," said the gentleman, "what are you doing up here?"

"Well, massa, I live at the Norf at present, in de metropolis of de Norf; I has a position as head man at de hotel."

"What are you doing at the hotel—waiter?"

"No sah, no waitah; I'ze got a big thing at a hotel in Fulton street. In de Summer season I bites de corn from de cob for succotash, and in de winter time I chews up de cold meat for hash."

CHEAP BUTTER.—The *Alta* of Friday is responsible for the following:

"A method of making butter from sweet milk, in an ordinary churn, by which all milk is converted into butter, and no buttermilk is left, was exhibited to us yesterday. The secret is not in the churn, but in the addition of an innocent and palpable ingredient. By this invention one gallon of milk will make eight pounds of butter; the old plan of churning sweet milk will give only one pound of butter from three gallons of milk, so that this new invention gives twenty-four times as much butter from the same quantity of milk. The butter is of good appearance, tastes well, and will keep as long as the article manufactured by any other processs. The holders of the patent right for this coast, talk as if they understood their business, and to prove their statements, will churn in the presence of anybody. The patent for this discovery was issued to Mrs. D. H. McGregory, of Detroit, Michigan, the discoverer, and the holders of rights for this coast are willing to sell county, State or Territorial rights to use the invention. Later in the afternoon there was an exhibition on a large scale—twelve pounds of butter made from twelve pints of milk. This is very valuable for the owners of daries."

☞A young man who had purchased a ticket for Providence on the 2:40 train, suddenly bethought himself that he had "forgotten something," and just as the ferry boat had left the slip, asked Mr. James Bowen, mate of the *Ortole*, to stop the boat. His request being disregarded, he made a frantic leap for the shore, but failing in his purpose, landed in the water, at once struck out for the shore, and soon reached the head of the pier and climbed up the wall. On being asked by the persons at the wharf the the object of his strange proceeding, he replied in broken accents, his voice choked with emotion and salt water, that he had forgotten to tell his wife that he was going to Providence. The latest dispatch from our special correspondent states that the young man was engaged in fishing for his hat and valise with a tackle which he borrowed from a fisherman on the wharf.

☞"There is an old tale, of which, though idle itself the use may be good. A certain man would never go to church, and when he heard the saint's bell, would say to his wife, "Go thou to church, and pray for thee and me." One night he dreamed that both he and his wife were dead, and that they knocked together at heaven's gate for entrance. Saint Peter (by the legend) is the porter, and suffered the wife to enter in, and kept the husband out answering him: she has gone in both for thyself and thee. As thy wife went to church for thee, so she must go to heaven for thee."

☞It was at Newark in the Jerseys, on last Thanksgiving Day, when the children and grandchildren were gathered at the old homestead, and granddathr looking at the merry group. Dinner was over. The laugh and jest were going around when father turned to the merriest and with a grave face asked: "Oliver, did you ever read 'Watts on the Mind?'" "No, pa," was the frank reply, "but I know What's on the Stomach!"

☞One of the most profound writers that ever lived, Colton, wisely said that it is an easy work to govern wise men but to govern fools or madmen, a continual slavery. It is from the blind zeal and stupidity cleaving to superstition, it is from its ignorance, rashness and rage attending faction, that so many mad and sanguine evils have destroyed men, dissolved the best governments, and thinned the greatest nations.

☞A man recently died in Arkansas who, though he could neither read nor write, had acquired considerable wealth, and was a great advocate for popular education; and to indicate his respect for the latter, he had a clause inserted in his will that a newspaper should be laid on his grave every Monday morning, and a new book of some kind also placed thereon every anniversary of his burial day.

☞A child in an English Sunday School, being called upon to say her text, promptly delivered herself of the following: "He that hatched me, hatched my father also." After some questioning it was discovered that the passage which the little innocent intended to repeat was, "He that hateth me hateth my Father also."

☞Two peculiarities distinguish the Boston girl, which can hardly fail to be noticed by the observant stranger: Of the young ladies between the ages of fifteen and thirty, whom he meets on Washington street in the afternoon, two-thirds wear glasses, and three-fifths carry, pressed to their bosoms, books bound in brown paper.

☞*Babtist Brother.*—"I don't like your church government. It isn't simple enough. There's too much machinery about it."

Methodist Brother.—"It is true, we have more machinery than you; but then, you see, it don't take near so much water to run it."

☞The Union Pacific Railroad locomotive "100," built at Providence, weighs 75,000 pounds and will draw one hundred heavily laden cars. It is now being tested on the Providence and Worcester road.

☞It was a pretty conceit of a romantic father whose name was Rose, and who named his daughter "Wild," so that she grew up under the appellation of "Wild Rose." But the romance of the thing was sadly spoiled when she married a man by the name of "Bull."

☞A dressmaker, in Paris, treatd herself to half a dozen oysters, recently. It was a good investment; for, in swallowing the last, it stuck in her throat, and when rescued it was found to contain a pearl, for which a jeweler gave her immediately seventy-five francs.

☞A lady was urged by her friends to marry a widower, and as an argument they spoke of his two children.

"Children," replied the lady, "are like toothpicks. A person wants her own."

☞It is reported that in three counties in North Carolina over four hundred families have joined the Emigration Society with a view to move from that State during the present summer and settling in Indiana.

☞"My dear," said an anxious matron to her daughter, "it is very wrong for young people to be throwing kisses at each other." "Why so mamma? I'm sure they don't hurt, even if they do hit."

☞The daughter of a toll-gate keeper in England recectly got herself into trouble by letting her sweetheart, a butcher, drive his wagon through free. "She never *tolled* her love.

☞The Montana *Gazette* thinks that it will not be long before the Prickly Pear Valley and country lying between the mountains and the Missouri is surveyed into townships and sections.

☞The Emperor of Morocco is so incurably lazy that he is likely to lose his throne, as his people are discontented and troublesome, in consequence of his inattention to business.

☞A French historian inquired of a very aged peasant if he had noticed any great changes since the revolution. "No," was the reply, "only in my youth they had no umbrellas, and now everybody has one."

☞A Western paper proposes that hereafter, instead of saying "Let us sing the doxology," the minister shall say, "Let us put on overcoats, adjust furs, slip on gloves, sieze our hats, and be dismissed."

☞A young thief charged with picking pockets demurred to the indictment, saying that he had "never picked pockets, but had taken them just as they come."

☞American volunteers for the Papal regiment must be Catholics, from eighteen to thirty years of age. The regiment will not be over 1,000 strong and no recruit can be under five feet ten inches.

☞A married lady being asked to waltz gave the following sensible and appropriate answer: "No, thank you, sir, I have hugging enough at home."

☞It costs us more to be miserable than would make us perfectly happy; how cheap and easy is the service of virtue, and how dear we pay for our vices.

☞A man out West, who offered bail for a friend, was asked by the judge if he had an incumberance on his farm. "Oh, yes," said he, "my old woman."

DUTCH FLAT ENQUIRER.

SATURDAY, JULY 11, 1868.

COMMENDABLE LIBERALITY.—We are told by reliable parties that the Central Pacific Railroad Company have three regular physicians employed in Sacramento, whose duty it is to attend to the wants of any one who may chance to get injured on their road. As soon as a person is injured, if too seriously to send to the city, word is sent down and one of the physicians gets on the first train leaving the city and attends to the sufferer's wants. The greater number of accidents that occur on the road are between this place and the Summit, and in most every instance they are compelled to send here for a doctor, and we would accordingly suggest that the company employ one of their medical attendants from this place.

THE Grant and Colfax club met on the evening of the 4th, inst. that being the regular meeting night, and also being the ninty-second anniversary of our independence. The members became inspired with patriotic feeling that burst forth in eloquent language from many persons present; several short but good speeches were made. It was an enthusiastic meeting, such as we hope to see often, each attendant joined with a will in cheers for "The Stars and Stripes," "The Boys in Blue," and for Grant and Colfax, "tried and true."

MR. A. E. REDSTONE, will visit our friends throughout the county, in a few days, in quest of subscribers to our Journal. The ENQUIRER at present is publishing more matter than both the other papers in this county and if our people will support us properly we will endeavor to constantly improve, and add new features of attraction to it. The best efforts of our paper will be put forth for the election of those sterling patriots Grant and Colfax. Those who are indebted to us for subscriptions will confer a favor by coming up.

MR. JOSEPH GARDINER, who has been a resident of this locality for the last nineteen years, and who has ever been characterized for his enterprising and liberal spirit, and whose clever and gentlemanly demeanor has won for him so many friends, takes his departure in a few days for the East, where he intends to settle, and live in quiet repose beneath the pleasant shade of his own vine and fig tree. We wish him and his family a pleasant voyage.

THE FOURTH.—The Fourth in this place was as quiet as the Holy Sabbath. Not even a respectable street fight is chronicled. Nobody was drunk, and if it had not have been for Chris. Hudepohl, we would not have even had a National Salute; it is true that the children fired off the usual number of fire crackers, but what did that amount to? We hope that it will never be our ill fortune to chronicle such a dull day again.

ON Wednesday, a Mrs. Atkinson of Roseville in this county, was visiting some friends at Lowell Hill, when she mounted a horse for the purpose of going to Remmington Hill, the horse became frightened and reared up and fell backward falling on the lady breaking her thigh and otherwise bruising her pretty badly. Dr. Nelson was sent for and rendered prompt and efficient aid.

ACCIDENT.—On Tuesday morning last, six section men were following the down freight train, on a hand car, and when a short distance above Alta the freight train stopped suddenly, and the men on the hand car being unable to stop it, ran into the freight train, and smashed the car into splinters, and broke one man's leg and bruised the others pretty badly.

THE Dutch Flat, one of the oldest claims in this section has made its final run. The ground is worked out on the present level. We hope, however, that its owners will immediately commence prospecting for the blue lead The last run was a good one; averaging nearly two hundred dollars per day.

THE Pacific Railroad company have been building a woodshed at Emigrant Gap, and one of the cylinders of the engine of the freight train going west struck the wood in the shed, and it and some thirteen or fourteen cars were thrown off the track, and mashed up considerably; one man was injured so seriously that it is thought his wounds will prove fatal.

IMPROVEMENTS.—We notice that W. H. Hillhouse Esq., has bought the two buildings adjoining his hardware store, and has repaired them, and improved their appearance very much: Who will be the next one to buy and repair a few of those old buildings on Main street.

EARLY in the week the watchman employed in the claim of Wolcott & Co., near Gold Run, discovered a Chinaman in the act of robbing the sluices, and gave him a charge of buckshot for his trouble. The Chinaman escaped and is now ensconced in China town.

A MAN named Siemon, who formerly resided in this place, was found drowned, on the morning of the 4th, inst., near the Big Bend of the Truckee. It is supposed that he committed suicide, and that domestic troubles was the cause.

WE learn that the partner of Mr. Oaks of Gold Run, decamped for the East on the last steamer with about $2,500 in dust belonging to them. Steps have been taken to overhaul the fugitive at New York.

ON Wednesday night a man named McNea' stole three horses from Alta, and put off across the mountains with them. Constable Cooke started in persuit, and we learn, captured the thief and his booty.

THE ladies of the Union church will hold an ice-cream and raspberry party at the theatre on next Tuesday evening. There will be statuary and tableaux also. Admission free.

PARTY AT BLUE CANYON.—A party was given at Blue Canyon last evening for the benefit of the Public School, which was well attended.

HOT.—The weather in this vicinity for the past week has been quite sultry throughout the day, but deliciously cool at night.

WE return thanks to the Messengers of the Union Pacific Express Company for files of San Francisco papers sent to this office.

SAD ACCIDENT.—We are pained to be called upon to record the particulars of a sad and painful accident, and one which may terminate fatally, to one of the most highly esteemed citizens of our county. Wm. F. Henn, of Newcastle, having bought a new wagon, took it home last Saturday, and while attempting to house it met with the accident which may cause him his life. On arriving at the shed or carriage house he started to drive in through the open doors, and while in the act of passing the threshold looked back to see if the hind wheels of the wagon could clear the sides of the entrance. Just at this instant his head and breast came in contact with the door-frame and was bent over backward, the small of his back striking across the back of the seat, breaking his spine and crushing down both the seat and springs. His back was broken at the twelfth dorsal vertebrae, and that portion of the body from the injury downward is entirely paralyzed. There is hardly a probability of his recovery, and even should he live he will always be perfectly helpless. Mr. Henn is a constable, an upright and highly respected gentleman and has the sympathy of the entire community.

"CONSITENCY."

The Grass Valley *National* reads the Republican party a lesson on its inconsistencies. It says "the doctrines of the Radical party of today, although," to rebels and their sympathizers, "equally obnoxious, are in many respects different from those expressed in 1860 and '64." The *National* like other dull fogies of the Democratic party would have the world stand still or retrograde. They are opposed, strictly, to that great pest of Democratic principles, improvement and education—the latter of which a member of the party assured us was antagonistic to their teachings, "for," said he "if the masses are educated, they will become troublesome; there will be too many aspirants for office, and those of us who have fought the battles of the party will be left out in the cold"—and it stands to "reason" that men who voted with the Union party in '60 and '64, should do the same thing this fall, "because he belonged to, and advocated the principles of a party then, which favored progress, and which proclaimed in the spirit of the Declaration of Independence "that all men are created equal; that they are endowed by their Creator with certain unalienable rights," and the Union party has ever kept those great principles in view; its aim is, and always has been, improvement, mentally, morally, and socially, and because it has not changed its sentiments you should support it. "Can any" Democrat "pretend to say that" these are not the constituent parts of the Republican platform?

This Democratic organ says "note the following resolution passed by Congress, and signed by Lincoln, after the first defeat at Bull Run:

Resolved, That this war is not waged upon our part with any purpose of overthrowing or interfering with the rights or established institutions of these States, but to defend and maintain the supremacy of the Constitution, and to preserve the Union, with all the dignity, equality and rights of the several States unimpaired; that as soon as these objects are accomplished the war ought to cease.

"It was," the writer says, "only by disguising their real sentiments, and professions like those contained in the above resolution, that the Radical leaders were ever able to deceive the people." The aim of the Union party has been to carry out the spirit of the above resolution. When Grant captured Lee and his army, and the rebels in the South laid down their arms, did not the war cease? Was not slavery abolished in order to break the power of the Southern army and compel a cessation of hostilities? Did the beligerent States have any established rights or privileges? If they did they are the first nation or people, since the origin of man, that did in times of war have any fixed rights. Who are these people that have been so grossly deceived? Not the members of the Republican party, because they indorse the acts of Congress; not the rebel soldiers of the South, for they did not accept a single proposition that was not forced on them at the point of the bayonet; not the rebel sympathizers (Democrats) of the North, for they opposed every effort that tended to bring about a conciliation of matters. If, as we have shown, it was neither of the parties that form the population of the United States, that was so cruelly deceived, who can the aggrieved ones be?

"We ask reasonable people to judge of the future by the past." Yes, that is just what we want. Look at the filthy record of the Democratic party; treason, rebelion, assassination, and a thousand untold sins; compare it with the bright, glorious, patriotic and unswerving course of the Union party. Dost thou like the picture? "If this Radical party has always made fair promises to catch votes, and when in power have never fulfilled them, it is not unreasonable to suppose that its course in the future will be equally dishonorable to itself and injurious to the country," but as it has not done any such gross and culpable acts, and as the Democratic party has, it but stands to reason that the Radical party is the one which should, in consequence of its honesty and integrity, be supported. "In their present platform" they do not attempt to "force negro suffrage *where they have the power*," and it is an insult to intelligent men, to make the brazen assertion that they do. Congress demands that the basis of representation should be regulated by the number of voters, so that fifty thousand white voters in the South should not be entitled to the same representation in Congress that a hundred thousand white voters in the North. That is all! "Let the Radical party be successful this fall, and they will have the power *everywhere*," in the United States, "and is any one so foolish as to imagine that they will neglect to exercise it!" We hope not. The party is making the fight for the sole purpose of obtaining the power, and if they win the fight peace and unity will again reign within our borders. "They same argument they have used for negro suffrage in the South," does not apply with equal force to all males including *Chinamen* of the North," and no one is so foolish as to think it does. "We ask, then, honest Republicans to look at the" consistencies of your "party, and compare the utterance of your leaders in 1860 with the deeds at present," and acknowledge, as you must, with candor, that it is a bright and truthful record, and well worth being proud of.

SEYMOUR LEADS THE VAN.—Notwithstanding the statement made by Seymour's private physician, that if he were nominated for President the excitement of the campaign might produce insanity, Quantrell's guerillas have placed him on their ticket for that position. To deny the great West or South the privilege of furnishing the man for that position was a death blow.—The South had rights; they had conducted the most vigorous and skillfully planned canvass against the Republican party ever known, and they, certainly, should have been allowed the the man. But, seriously, Seymour, we regard as one of the weakest men that the Democrats could have advanced; a fiery corperhead, and an unprincipled politician, he, instead of uniting and conciliating the floating element, will distract and drive them assunder. Men who fought in the Union army will not sustain a man whose every effort during the rebellion was for the rebels.

NEWSPAPORIAL.—The *Stars and Stripes* has entered on a new volume, so has the Grass Valley *Union*, which is, aside from its politics, a good paper. E. M. Dewey has retired from the Mountain *Messenger*, and N. E. White from the Napa *Register*. During the time Mr. White had control of the *Register* it was the best weekly paper outside of the cities in the State, and we are sorry that people of Napa did not appreciate it more.

GOOD DEMOCRAT.—The notorious rebel General Forrest was the leader of the Tennessee delegation in the National Democratic Convention. How he laughed at the mock display of the Soldiers' Convention, composed of a few hundred disappointed office seekers like Gen. Slocum and Col. Ewing, who were playing second fiddle to that gathering of copperheads and rebels!

WE concede that among the drafted men there were a fair proportion of Democrats, many of whom remained such. Nay, we will go further, and concede that among the deserters, the perpetual occupants of the guardhouse the skulks and laggards generaly, the Democratic party had a large majority.—*Champion.*

It is reported that only one vessel of the great fleet of over two hundred sail, which left the port of San Francisco in [illegible] has failed to arrive at their several ports of destination. The missing one is the Ellen Sears, which has been nearly one year out on her voyage to Liverpool, and is generally given up as lost.

THE Democrats of Napa fired a salute of one gun on the announcement of the nomination of Seymour.

A LADY'S ENDOREEMENT.

Madame E——, the acknowledged leader of the most refined and fashionable society in the city of New York, speaks of Murray & Lanman's Florida water in the following highly complimentary manner, viz: "It has a fragrance as fresh as the odor from blooming flowers, and imparts to the bath a delightful buoyancy. I use it on the toilet table and the handkerchief, to the exclusion of all other perfumes."

☞ Buyers should always ask for the Florida Water prepared by Lanman & Kemp, New York. 545

ASIATIC CHOLERA.

The strongest proof of intrinsic MERIT.

DEAR SIRS:—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The cholera appeared here soon after we received it. We resorted at once to the Pain Killer, using as directed for cholera. A list was kept of all to whom the Pain Killer was given, and our native attendents assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully yours. J. M. JOHNSON,

Missionary at Swatow, China. g1m

CHAS. SEFFENS.....Proprietor.

THIS HOUSE BEING NOW FULLY completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their support.

LARGE AIRY ROOMS,

with clean bed linen, well ventilated are requisites that should not be dispensed with but which are ALWAYS found at this house.

THE TABLE

will always be found supplied with the latest delicacies of the season, and polite and willing waiters always in attendance. In connection with the house is a BAR ROOM, always supplied with the best

WINES, LIQUORS and CIGARS,

to be had in the market. An experienced barkeeper constantly at hand to wait upon customers; also a fine Billiard Table where parties may play this healthful game FREE OF CHARGE.

SUMMER RETREAT!

To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited and require fresh air kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

LIVERY STABLE.

Connected with the hotel is a first-class Livery Stable, where

Carriages and Horses

can be had for all parts of the country. Parties supplied with carriages with or without drivers.

Carriages from this hotel will be found at the depot on the arrival of every train. jy24.

STARR'S EXCHANGE,

Head of Main Street, Colfax.

THIS HOUSE, SITUATED AT the most central locality in Colfax, and Colfax being the Center of a radius of the most prosperous mountain towns in the State, presents an eligible point from which to gather the most reliable information of the mining, commercial and social advantages of the most populous portion of the country. Being located but a few steps from the railroad depot presents every advantage desirable to the traveler or resident. Every accommodation furnished to make it a home for families as well as a pleasant stopping place for transient customers. Connected with the hotel is a first class

LIVERY STABLE!

where horses and carriages can be obtained for all parts of the mines. Parties furnished with every description of conveyance at the shortest notice and on reasonable terms.

TO THEATRICAL COMPANIES.

The undersigned has fitted up an elegant hall for theatrical and dancing purposes; and having procured all the paraphernalia necessary to the use of theatrical exhibitions is now prepared to accommodate all who may call.

THE

EAGLE PIANO-FORTE CO.

950 BROADWAY, NEW YORK.

The above company is composed of a number of practical and experienced Piano-Forte builders, sustained by abundant Capital, and whose especial object is to manufacture Piano-Fortes embracing,

Every modern Improvement of

REAL MERIT.

While other manufacturers embody their own special improvements in their instruments, they are deterred from using, the perhaps equally valuable improvements of others in regard to other portions of the instrument, by the often exorbitant royalties or fees demanded by the Patentees for the privilege, so that although we have frequently announcements of Pianos embracing every modern improvement, there are really none at present that do so. It is the determination of the EAGLE PIANO-FORTE CO., to disregard all considerations of expense in procuring the rights to use any and every improvement which has met the approval, and may be recommended to them by the leading Pianists of the day, such as the Abbe Liszt, Thalberg, Gottschalk and others.

This Company has boldly embarked with the above purpose, confident that the American people are prepared to approve, appreciate, and sustain their effort to produce,

The most complete and best Piano-

FORTE IN THE WORLD.

While the expense of manufacturing will necessarily be increase by the purchase of these rights and privileges, it will not be permitted to increase the retail price of any of their instruments. The same style and finish of instruments will be sold as cheaply as those of any other good manufacturer.

Every department of the manufacturing being under the hands of a practical workman, who is at the same time a member of the Company and interrested in its success and reputation, insures an exactness with regard to the character of the work that cannot otherwise be obtained.

The best recommendation for these Pianos lies in the fact that they are rapidly finding their way into the parlors of all the leading professional and amateur Pianists of the day in preference to all others.

Confident that their instruments will be their own best recommendation, the Eagle Piano-Forte Co., are anxious to effect the early introduction of one or more of their Pianos into every community, and to this end they offer

Extraordinary inducements to

MUSIC TEACHERS AND OTHERS

Who may be able to aid them in their effort.

School Committees and others desiring instruments for Public Institutions will be offered special inducements.

Ladies and others having charge of Charitable Fairs, Festivals, &c., will be offered special inducements together with suggestions by which the proceeds of their benevolent efforts may be greatly increased: all such are especially invited to correspond with us.

Every instrument manufactured by the Eagle Piano-Forte Co., is made out of the very best and most suitable material selected from all parts of the world, most thoroughly seasoned and prepared, and warranted, in every respect for five years, as to material and workmanship, and to stand in any climate.

Orders promptly and carefully filled from the the large assortment always on hand.

PREACHING at the Union Church to-morrow morning at the usual hours.

THERE will be preaching in the M. E. Church on Sunday at the usual hours, morning and evening.

FISHERMAN'S LUCK.—The Gold Hill *News* of the 3d inst. tells the following tough story:

A fisherman dwelling on one of the numerous beautiful little coves which border on Lake Tahoe, and who for two or three years past has been badgered half to death with a quarrelsome wife, was fortunate enough to have her run away from him before daylight last Friday morning, with a one eyed Chinaman, whom he had in his employ as an assistant. After a lonely but satisfactory breakfast, by way of variety, he undertook to split a big green log lying in front of his door. He started a wedge into it but at the third blow with his maul the wedge sprang out, flew through the air, and striking in the pond killed a fine trout which weighed four pounds and a half. In dressing the fish a two dollar and a half piece and three dimes were found inside. But the strangest part of the story is yet to come. While probing about in the mud with a forked stick to find his wedge, a hard, smooth substance stuck in the cleft of the stick, which on being raised to the surface proved to be a fine gold watch, with a bullion chain attached, doubtless lost by a pleasure party of San Francisco capitalists, who up set in a small boat at that point some five years ago. The case being waterproof the watch was uninjured, but will probably need cleaning. On the inside of the case was engraved the name A. H. Browne, of San Francisco which may aid the rightful owner in proving and recovering his long-lost property. The watch can be found at the Express Saloon, Main street, Gold Hill.

IT appears that among the subjects which will enter into the revision of the foreign treaties with China, says the San Francisco *Alta*, is the privilege of opening the mines of that country. What little is known about them is sufficient to indicate that the stores of anthracite and iron in the Celestial Empire are probably inexhaustible. But the superstition of the people themselves, against whom the Government appears to be powerless, is reflexibly opposed to opening the mines, and it is a matter of very grave doubt whether there is any power by which this objection can be overcome. As we stated the other day, the appointment of Dr. MacGowan to write a book on mining and metallurgy indicates an advance which is hopeful for the cause of enlightenment in China; but the world will wait with anxiety to see what will be done by the Chinese Government when, added to a demand for changes in the tariff, and a better regulation of inland transit dues, the Western Powers will ask that the mines be opened by the natives or by foreigners.

STOCK GAMBLING.—The Virginia City *Trespass* gives two instances from life, as illustrative of the uncertainty attending the speculating in stocks: First, a poor, ignorant servant girl in that city, it says saved five hundred dollars from her earnings, and conceived the idea of trying her fortune in stocks. She bought when they were low, putting every cent of her money; and changed, buying and selling as the stock varied, till just before the recent drop, she closed out, and robbed $50,000. She has quit service and promises herself never to work again, only for herself. She will start for Boston in a few days, to live on her money. Second, a mechanic in town, who commenced last year, on what amount of capital we do not know, but it could not have been much. He ran the stake up by fortunate operations till he could have cashed in $15,000. He held a day too long. Stocks tumbled. He could not close out to-day for $5,000.

"The *Pall Mall Gazette*, with most creditable candor, confesses that the bulk of Mormondom is made up from British soil. It says that the Mormon nursery is at Wales, where there are said to be twenty illegitimate children to one born in lawful wedlock. Of six hundred and fifty emigrants who sailed from Liverpool for Salt Lake City, *via* New York, a short time since, a great majority were Welch women, and the journal from which we have quoted says that England sends shiploads of Mormons to America, and then writes books to prove that Mormonism is the natural fruit of the loose principles which prevail in America. This is a weighty admission from an unexpected quarter; and the statement is doubtless correct.

SHORTLY after Hon. John Conness was chosen to the United States Senate, he presented to President Lincoln a cane which had been given to him by Broderick, says the San Francisco *Alta*. After Lincoln's death the cane was supposed to have passed into the possession of Robert T. Lincoln, but we learn that Mrs. Lincoln and her youngest son, "Tad," lately made a visit to Springfield, Illinois, when the youngster on behalf of his mother presented to Jesse K. Dubois, an old friend of Lincoln's, the aforesaid cane, which now bears the following inscription: "From Broderick to Conness; from Conness to President Lincoln; from Mrs. Lincoln to Jesse K. Dubois, 1868."

IRRETRIEVABLE DEFEAT.—The New York *World*, talking back to Johnson's organ, the Washington *Intelligencer*, says

The present dissatisfaction of the *Intelligencer* is caused by the recommendation of the *World* to treat the negro suffrage as a dead issue in Federal politics. The bearing of such a recommendation on the prospects of President Johnson naturally enough makes it so distasteful to his personal organ. If we were to run him, we should be obliged to run him on that issue with which he is so completely identified, and on which, with the most honest and praiseworthy intentions, he has led the Conservatives to irretrievable defeat.

THE *Enterprise* of the 8th instant says that the shower which fell the previous evening, was of almost incalculable value to the two cottonwood trees which represent the groves and parks of Virginia. The dust was washed off their sixteen leaves which form their collective foliage and they breathe again and are refreshed. It is now thought the four sickly leaves on the largest tree will recover, and it is reported that two swelling buds on the smallest tree will bring forth a pair of handsome twin leaves.—God grant it.

FLAG OF TRUCE.—As soon as it was announced in Sacramento that Seymour was nominated for President, says the *Record*, the *Reporter* office run a flag of truce—that is a white streamer. It hung very limber. But when the announcement was made that Frank P. Blair, Jr., had been nominated for Vice President it hung limberer. Every member of the party we met yesterday looked as if Democratic roosters had been turned on their backs. Oh, what a ground swell from New York.

NEGRO SUFFRAGE.—The Sacramento *Reporter*, one of the prominent organs of the Democracy, in discussing the negro question, makes the following frank confession:

The question of negro suffrage, it can not be denied, occupies the public mind more than any other of the political questions of the day. As it does not properly belong to national politics, nor does it necessarily enter into our State politics, it is but a disagreeable and disturbing question which were better left alone to those who may control it.

☞ "Charlie, I was very much shocked to hear you singing, 'Pop goes the Weasel,' in church." Well, mamma, I heard everybody else singing and that was the only tune I knew."

☞ Some one, who has a keen appreciation of domestic comfort, once gave as a toast for the tea-table: "Woman—the only sewing machine that ever basted a goose."

THE Bishop of London has ordered the President of the United States to be included in the prayers of the Episcopal church for the queen.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 5½, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhœa, Cramps, Spasms, Bilious Cholic, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Diptheria, Hoarseness, Sore Throat, Chills, Fever and Ague, Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chest with Ready Relief, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

How the Ready Relief Acts.

In a few minutes the patient will feel a slight tingling irritation, and the skin becomes reddened; if there is much distress in the stomach, the Relief will assist Nature in removing the offending cause.—a general warmth is felt throughout the entire body, and its diffusive stimulative properties rapidly courses through every vein and tissue of the system, arousing the slothful and partially paralyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stomach, colds, chills, headache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured.

It will be found that in using the Relief externally, either on the spine or across the kidneys, or over the stomach and bowels, that for several days a pleasing warmth will be felt, showing the length of time it continues its influence over the diseased parts.

☞ Price of R. R. R. 50 cents per bottle. Sold by Druggists and Country Merchants, Grocers, &c.

RADWAY & CO.,

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times through the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking the Relief repeatedly, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison.

Let this treatement be followed and thousands will be saved. The same treatment will be followed in Fever and Ague, Yellow Fever, Ship Fever, Billious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.

REDINGTON & CO.S' COLUMN.

REDINGTON & O.S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all seasons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

REDINGTON & CO.,

STOP THAT COUGHING!

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cure YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

ALL OVER THE W RLD

People of sense and udgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.

The first trial always has a marked effect.

No change in diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.

CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins, and Dropsical Affections.

CAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism etc.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-budge, orange, charaway, coriander, snake-root, etc.

S.T-1860-X.

Another wonderful ingredient, of Spanish origin imparting beauty to the complexion and brilliancy to the mind, is yet unknown too the commerce of the world, and we with ehld its name for the present.

With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable; perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT

The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING:

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Sold by all Druggists and Stores, at 25 and 50 cents and $1.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains; etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Sold by all Druggists and Stores in every town and mining camp on Pacific coast.

DUTCH FLAT ENQUIRER.

"CHURCH BELLES."

Coming in couples,
Smiling so sweetly,
Up the long aisle
Tripping so neatly!

Fluttering of feathers,
Rustle of dresses,
Fixing of ribbons,
Shaking of tresses!

Envying bonnets,
Envying laces,
Nodding at neighbors,
Peering in faces.

Whispering softly,
Heeding no sermon,
What they go there for
Is hard to determine.

On all afound them
Gazing benignly,
Wholly unconcious,
Singing divinely!

Prosy discoursing
Don't suit their whims,
'Tis plain they assemble
Just for the *hims!*

AN OLD BACHELOR.

What a pitiful thing an old bachelor is,
With his cheerless house and rueful phiz!
On a bitter cold night when the fierce winds blow,
And when the earth is all covered with snow,
When his fire is out, and in shivering dread
He slips 'neath the sheets of his lonely bed.
How he draws up his toes,
All encased in yarn hose,
And he buries his nose
'Neath the chilly bed clothes:
That his nose, and his toes
Still encased in yarn hose,
May not chance to get froze.
Then he puffs and he blows, and says that he knows
No mortal on earth ever suffered such woes.

SEA BIRDS.—The question is often asked, where do sea birds obtain fresh water to slake their thirst? But we have never seen it satisfactorily explained till a few days ago. An old skipper, with whom we were conversing on the subject, said that he had frequently seen these birds at sea, far from any land that could furnish them with water, hovering around and under a storm cloud, chattering like ducks on a hot day at a pond, and drinking in the drops as they fell. They will smell a rain squall a hundred miles, or even farther off and scud for it with almost inconceivable swiftness. How long sea birds can exist without water is only a matter of conjecture; but probably their powers of enduring thirst are increased by habit, and possibly they can go without it for many days, if not for many weeks.

THE fight of the Eastern insurance companies against the Builders Insurance company progresses slowly, at last accounts the Eastern companies were a little ahead.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, flental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates billious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers,
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

FOR ONE DOLLAR.

The Merchants' and Manufacturers'
Jewelry Association

Calls your attention to the fact of its being the largest and most popular Jewelry Association in United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe, owing to the late German war, and recent disastrous financial crisis in Europe, has caused the failure of a large number of jewelry houses in London and Paris, obliging them to sell their goods at a great sacrafice, in some instances less than one third the cost of manufacturing. We have lately purchased very largely of these bankrupt goods, at such extremely low prices that we can afford to send away finer goods, and give better chances to draw the most valuable prizes than any other establishment doing a similar business. OUR AIM IS TO PLEASE, and we respectfully solicit your patronage, as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is worth less than one dollar, retail, and there are no blanks. Parties dealing with us may depend on having prompt returns, and the article drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the Merchants' and Manufacturers' Jewelry Association, and have kindly allowed use of their names.

Frederick V. Browne, Esq., Treasury Department, Washington, D. C., Piano, value, $450; Miss Anna L. Frost, Waverly Terrace, N. Y. city, Ladies' Gold Enameled Diamond Set watch—value, $300; William B. PATENT MEDICIN.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER,
STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry,

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whose long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion inaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no resene except in proper and skillful treatment. Consult then, at once, a physicism whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

FRENCH MEDICAL OFFICE

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken in der treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, s, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, and confidential.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.
